Website

## From our Engineering Department

Village of North Palm Beach -  
Pepperwood Circle &  
Anchorage Dr. Culvert  
Replacement

Village of Palm Springs - Frost  
Lake Outfall Improvements

Due to aged infrastructure, Engenuity Group provided both Surveying and Engineering Services for the replacement of drainage culverts in North Palm Beach, FL. Engenuity obtained topographic and underground utility information, prepared construction documents, provided permitting, bidding assistance, and construction administration services. The project was successfully completed in April, 2020.

Engenuity Group, Inc gathered topographic information for the intersection of Bonnie Boulevard and Lillian Road for the proposed drainage structures and outfall pipe from the lake. Our Engineering team prepared 100% design documents for the drainage system improvements. These Drainage improvements would allow for proper flow of stormwater to alleviate elevated water levels.

## Welcome to the Team!

Engenuity Group, Inc. would like to welcome its newest members to the Team!

**Todd H. Bates, P.S.M.**  
**Professional Land Surveyor & Mapper**

## Summer Interns

**Brandon Barbour**

Our Engineering Summer Intern, Brandon, assisted Engenuity Group with our transition to

**Maxwell Wharton**

Our Survey Summer Intern, Max, returned for a second year in a row and assisted our Survey Team

fully digital. Additionally, Brandon joined our Survey Crew on a few sites to gain hands-on experience as well.

with Topographic, Boundary, and Tree Surveys and learned the in's and out's of our survey equipment.

## Beyond the Fair! - Young Leaders Program

A long time client of Engenuity Group, Inc., the **South Florida Fair**, selected Bradley Jackson, Director of Marketing & Business Development, to be a part of their Young Leaders Program for the Class of 2021. "Beyond the Fair" is an opportunity for Young Professionals to get a "behind the scenes" look at the processes and procedure for different aspects of the fair. Those selected get a behind the scenes tour into the Amphitheatre, FrightNights, YesterYear Village, and lastly, an invite to a Young Professional's mixer.

## Social Distancing Lunches

Engenuity Group, Inc. hosted Social Distancing Lunches during these difficult times to boost moral and bring awareness to the importance of social distancing and proper sanitation procedures. During this Lunch, chairs were seated 6 feet apart and masks were only removed for eating purposes.

## From our Survey Department

**Citywide Boat Ramp  
Replacement Program PH III -  
City of Sunrise, FL**

**City of West Palm Beach Clear  
Lake Trail**

Engenuity Group, Inc. Provided a Topographic survey of (9) boat ramp sites for the City of Sunrise, FL. At each boat ramp site (2) vertical and (2) horizontal controls were established, all surface features including drainage structures, drainage apron, culvert, trees, sidewalk, swale, edge of pavement, landscaping, rip rap, valve covers, manholes, and guardrail, etc., and survey drawings were prepared utilizing AutoCAD 2016.

The City of West Palm Beach requested a Topographic & Tree survey for Clear Lake Trail in West Palm Beach, FL from Engenuity Group. There was a sensitive time frame surrounding the project and Engenuity Group was able to turn around an executed and successful survey within the time frames the City requested.
